

## Dôležité upozornenie pre klientov o finančnej páke

Vážený Klient,

Ako sme Vám vysvetlili v Poučení o riziku, použitie Pákového efektu zosilňuje účinok pohybov na trhu na Váš kapitál. Použitím vyššieho pákového efektu môžete zvýšiť svoje zisky, avšak takisto výrazne zvýšiť Vašu prípadnú stratu. Napr. ak sa trhovú cenu hýbe opačným smerom ako ste predpokladali.

Klient môže kedykoľvek požiadať MIG BANK o zníženie prednastavenej finančnej páky použitej na každom obchodnom účte.

Ak si želáte zmeniť prednastavenú finančnú páku pre Váš účet (Vaše účty), spravte tak prosím vyplnením [Žiadosti o zmenu finančnej páky](#) a jej zaslaním do MIG BANK.

Podľa Všeobecných obchodných podmienok, MIG BANK má vždy právo akceptovať alebo zamietnuť požadovanú finančnú páku, ak to bude považovať za potrebné.

Radi by sme Vás informovali, že od 15/09/2011 nebude MIG BANK automaticky meniť finančnú páku na Vašom účte (Vašich účtoch) podľa výšky Vášho vkladu a výberu, ako bolo doposiaľ stanovené na našej webovej stránke.

Ak sa rozhodnete pre ponechanie Vašej doterajšej finančnej páky, tá sa na konci pracovného dňa 14/09/2011 nezmení.

To isté platí v prípade vkladov a výberov, s výnimkou, ak Vy požiadate o aktualizáciu páky alebo ju zmení MIG BANK v súlade so Všeobecnými obchodnými podmienkami. Zástupcovia klientov, môžu požiadať o zmenu páky pre klientov, ktorí podpísali v ich prospech Obmedzenú plnú moc.

Žiadame vás, aby ste tieto dôležité zmeny vzali na vedomie.

V prípade potreby nás neváhajte kontaktovať.

S pozdravom,

Team MIG BANK

Investment in FX and CFD involves a high degree of risk to your money. Before investing in the FX and/or CFD market you should be aware of the risks involved due to the fluctuation in the value of such commodities' prices, which can cause fluctuations in the value of your investment. Any type of market or trade speculation that can yield an unusually high return on investment is subject to unusually high risks. FX and CFD trading may give rise to large losses within a relatively short period of time that may be attributed to adverse market movements or to position build-up. Before deciding to enter into FX and/or CFD trading, you should carefully consider your investment objectives, level of experience, and risk appetite. FX and CFD trading are not suitable for everyone. You should only invest in FX and/or CFD trading the portion of your own assets you are disposed to lose entirely. In this respect, only your surplus funds should be placed at risk and anyone who does not have such surplus should imperatively avoid engaging in FX and/or CFD trading. In particular, you should not engage money you cannot afford to lose. You should immediately contact any independent financial advisor and request any necessary information in case of doubts on the risks related to FX and CFD trading.
